Allen and Terri Tackman

Dear Mr. and Mrs. Tackman,

This letter serves as your March 1, 2003 to February 28, 2004 Annual Operating Plan and Instructions.

**Allotment:** Deep Creek  
**Permittee:** Deep Creek Ranch Inc.

**Permitted Numbers:**

**205 Cattle (cow/calf)                      3/1/03 - 2/28/04**  
**8 Horse (saddle)                              3/1/03 - 2/28/04**

- 1. Grazing System:** Grazing on rotation schedule between Deep Creek and T Bar Allotments.
- 2. Authorization:** (From Bill for Collection)

Permittee	Number and class	Dates Authorized
Deep Creek Ranch, Inc.	205 Cattle (cow/calf) Deep Creek Allot	3/01/03 – 5/14/03
	8 Horses (saddle) Deep Creek Allot.	3/01/02 – 2/28/04
	205 Cattle (cow/calf) T-Bar Allotment	5/15/03 – 10/31/03
	205 Cattle (cow/calf) Deep Creek Allot.	11/1/03 – 2/28/04

- 3. Management System:** Cattle are scheduled to graze the following in 2003:

2003 objectives: Rotation schedule as indicated below between Deep Creek and T Bar Allotments. The Mesa Holding Pasture will be rested during July, August and September for the growing season.

Pasture	Time Frame	Comments
Bearwallow	11/1/02 - Snow	may be used for drought relief
Lost Lake & Round Mountain	11/1/02 – 5/15/03	
T Bar Allotment	5/15/03 – 10/31/03	
Bearwallow	11/1/03 – Snow	
Lost Lake & Round Moutain	Dec. – 5/15/04	

**Time frames are estimates, utilization standards being met should supersede dates when use standards are met for a given pasture.**

**4. Special Instructions:**

- a) Stock tanks must be surveyed for possible aquatic habitat and archeological concerns before maintenance cleaning is authorized. We should plan ahead for these surveys.
- b) Ongoing grazing consultation for the Chiricahua Leopard Frog is in progress.
- c) Salt or mineral blocks should not be placed within a quarter mile of water and ideally no closer than one-half mile. Salting is not authorized on any watering locations. Place blocks in lightly used areas until allowable forage use is achieved and then move them to the next least utilized area. Blocks should not be placed in meadow bottoms or near roads. Do not place block in the same area used in previous years and finally, put them on hard ground not susceptible to erosion.
- d) Any changes made in this plan because of any of the above will be made in cooperation with the District Range Staff and approved prior to the change by the District Ranger. The permittee will give the District at least Five-day notice of an anticipated change.

**5. Utilization Standards and Monitoring:**

Allowable use is the percentage of use that will be allowed on key grass and browse species. This use will be measured in the key monitoring areas shown below for the Deep Creek Allotment. Adherence to utilization levels *is mandatory and should be the limiting factor* in adjusting grazing management. Adjustments in numbers, rotation schedule, or season of use will be made if allowable use standards are met. Cattle will be moved to the next scheduled pasture or off the allotment when these forage utilization standards are met. The option to return livestock to a pasture that has received adequate plant re-growth will be considered if all resource objectives can be met.

The maximum allowable use levels set for the Deep Creek Allotment will be **35%** (2.5 inch average stubble height on Blue grama grass) during the growing season from May 1 through Sept 30. The maximum allowable use levels during the dormant season from October 1 through April 30 will be **40%** (2 inch average stubble height on Blue grama grass). Use of browse is not to exceed the **50%** level. Use levels will be monitored in the following areas:

**Key Monitoring Areas**

<b>Area</b>	<b>Important Plant Species</b>	<b>Comments/Descriptions</b>
C-3 Round Mt. Pasture	Blue Gramma	
C-4 Round Mt. Pasture	Blue Gramma	
C-5 Round Mt. Pasture	Blue Gramma	
C-2 Mesa Holding Pasture	Blue Gramma	
C-3 Copper Creek Pasture	Blue Gramma	
C-1 & C-5 Lost Lake Pasture	Blue Gramma	

C-4 Bearwallow Pasture	Western Wheatgrass	
------------------------	--------------------	--

**6. Range Improvements:**

**a) Fences:** Proper maintenance of fences will help ensure they will hold livestock in a pasture and will extend their useful life. Fences in need of reconstruction will be inventoried and prioritized by the District for reconstruction. Please let us know if any other fences than the above described are beyond reasonable repair and are in need of reconstruction.

Permit-Modification	Unit	Completed by date:	Status
To be assigned	RO3105, 1mile		

One mile of fence #RO3105 in section 16 on the border of the Deep Creek Allotment and the Copper Creek Allotment will be brought up to standard by the Forest Service. When the fence is completed, it will become the responsibility of the Deep Creek Allotment to maintain. This agreement is based upon discrepancies between the Deep Creek Allotment Maps dated 1982 and 1993.

Fence #RA3105 near the privateland boundary needs to be repaired.

**b) Water:** Stock water is important for proper livestock distribution. If natural water is not available to achieve good distribution, it may be necessary to haul water. In addition, maintenance of pipelines, troughs, spring boxes, and dirt tanks will help provide water throughout the year. If any of these improvements need repair work, you are authorized to do so, unless it requires ground disturbance, such as dirt tank cleaning. Advance planning is needed for authorizing tank cleaning so surveys can be scheduled during the summer months. If the pipelines and troughs are beyond reasonable repair, we are willing to work with you to replace them. Please protect natural springs and areas with riparian type vegetation. Drainage bottoms, creeks, springs, and cienegas where water is available are most susceptible to livestock concentrations.

Bentonite Twin Peaks Tank #3283

Permit-Modification	Unit	Completed by date:	Status
None			

**c) Other improvements:**

**7.**

The Annual Operating Plan/Instructions are a part of the Term Grazing Permit as provided for in Part 3, Section 8. It complies with the standards and guidelines found in the Forest Plan, including the 1996 Forest Plan Amendment. It also complies with the Endangered Species Act as found in the Biological Assessment for the Deep Creek Allotment. Any additional information collected during the year may be incorporated into the annual operating instructions.

This decision is subject to administrative review, pursuant to 36 CFR 251; and any appeal of this decision must be fully consistent with 36 CFR 251.90 (see enclosed copy of 36 CFR 251 regulations). In accordance with 36 CFR 251.84, if you file an appeal, I am willing to meet with you to discuss any concerns you may have with my decision. If you file an appeal, you may request an oral presentation in the appeal or at any time prior to closing of the appeal record (36 CFR 251.97). Additionally, if you file an appeal, you may request a stay of my decision in the appeal or at any time prior to closing of the appeal record (36 CFR 251.91).

A notice of appeal must be filed with Marcia R. Andre, Forest Supervisor, Gila National Forest, 3005 E. Camino del Bosque, Silver City, New Mexico, 88061-7863, within 45 days of the date of this decision. A copy of the notice of appeal must be filed simultaneously with Larry D. Raley, District Ranger, Glenwood Ranger District, P. O. Box 8, Glenwood, New Mexico, 88039-9704.

Sincerely,

Larry Raley  
District Ranger

36 CFR 251 REGULATIONS

TITLE 36 - - PARKS, FORESTS, AND PUBLIC PROPERTY

CHAPTER II - - FOREST SERVICE, DEPARTMENT OF AGRICULTURE

PART 251 - - LAND USES - - Table of Contents

Subpart C - - Appeal of Decisions Relating to Occupancy and Use of National Forest System  
Lands

Sec. 251.90 Content of notice of appeal.

- (a) It is the responsibility of an appellant to provide a Reviewing Officer sufficient narrative evidence and argument to show why a decision by a lower level officer should be reversed or changed.
- (b) An appellant must include the following information in a notice of appeal:
  - (1) The appellant's name, mailing address, and daytime telephone number;
  - (2) The title or type of written instrument involved, the date of application for or issuance of the written instrument, and the name of the responsible Forest Service Officer;
  - (3) A brief description and the date of the written decision being appealed;
  - (4) A statement of how the appellant is adversely affected by the decision being appealed;
  - (5) A statement of the facts of the dispute and the issue(s) raised by the appeal;
  - (6) Specific references to any law, regulation, or policy that the appellant believes to be violated and the reason for such an allegation.
  - (7) A statement as to whether and how the appellant has tried to resolve the issue(s) being appealed with the Deciding Officer, the date of any discussion, and the outcome of that meeting or contact; and
  - (8) A statement of the relief the appellant seeks.
- (c) An appellant may also include one or more of the following in a notice of appeal: a request for oral presentation (Sec. 251.97); a request for stay of implementation of the decision pending decision on the appeal (Sec. 251.91); or, in those States with a Department of Agriculture certified mediation program, a request for mediation of grazing permit cancellation or suspensions pursuant to Sec. 251.103.
